

PRODUCT DATASHEET | IL-AICON

SENSE CONTROLLER EXCL. 2 CR2430 BATTERIES

DESCRIPTION

The Sense fixtures can be controlled with the Sense controller. Through the app you easily set up the buttons, after which anyone can use the controller. This makes it easy to switch the fixtures on and off, set the light color and dim the lights. Preset light scenes can be stored under buttons 1 to 4, such as green, blue or red.

Specifications

- Switching on/off
- 4 preset lighting scenes
- CCT adjustable from 2700K to 6500K
- Dimmable (brighter and softer light)
