SOCKET MOUNTABLE 16A WITH CABLE GLAND 4-GANG IP54 GRAY/BLUE

DESCRIPTION

The Power Solid splash-proof and mountable socket is available in a 3-gang or 4-gang version, available in stylish black or gray with blue. Robustly built and certified to IEC 60884-1:2022. With an IP54 rating, it is ideal for use in demanding environments. Raised sockets maintain splash resistance when using straight splash-proof plugs. Connection has also been thought about: input through an M20 cable gland (included), suitable for cable input up to 2.5 mm² and equipped with a 180-degree rotatable cover for added convenience during installation.

SPECIFICATIONS

Brand:	Power
Product type:	Socket
