

PRODUCT DATASHEET | IL-TMDALIT
THINQ TO DALI2 MODULE SPECIAL

DESCRIPTION

Due to its smaller size, it can be used well in light lines and other fixtures with a DT8 driver / Dali driver.

This is the ideal building block to apply the Thing wireless lighting control system to existing DALI products or DALI systems. No need to replace your existing DALI system products to connect them to Thing. Provides wireless on/off, dimming and color temperature control.

Note: This component requires constant current.
